

THE HOW PROJECT

(Heritage Of Walton)

The project is a follow-up from the village neighbourhood plan policies POLICY 6 & 7 - WALTON COLLIERY HERITAGE TRAIL

- Proposals for the creation of the Walton Colliery Nature Park Heritage Trail (HT) within the Walton Neighbourhood Plan will be supported. New development affecting the route of this trail within the Walton Neighbourhood Plan area should demonstrate how it will contribute to and be compatible with it.
- Proposals to extend the Walton Colliery Nature Park Heritage Trail to Waterton Historic Park and Haw Park Woods will be supported. New developments affecting the route of this trail should consider how they could contribute to and be compatible with it.

- CHAPEL

We will not be a fund raising group purely people interested in their point/points of history interest input to the project development. Commitment will be time you can afford and will be discussed at the time when the group has been established.
